

Option 1:

Type this address into web browser with no spaces.

<http://upload.yourexhibitresource.com/upload/>

Login window will appear then enter just follow the directions on the site.

Option 2:

Using an FTP client, not a web browser.

For OS9 and earlier we recommend using Fetch: <ftp://skyline:displays@ftp.skyline.com/pub/Fetch.sit>

For OSX, we recommend RBrowser, used in free "FTP Only" mode: <http://www.rbrowser.com>

or FileZilla, another free FTP program that works for Mac & PC <http://filezilla-project.org>

Once you have an FTP Client for your Mac, use this logon:

Protocol: FTP (Not Public FTP) Port: (Leave Blank) These two are shown in RBrowser software, FileZilla has port as well.

Host: <http://upload.yourexhibitresource.com>

Username/UserID: None needed

Password: None needed

Path/Directory: upload

If you are having difficulties after following the included instructions carefully, please contact David Zukerman at 920-347-1722 for technical assistance.
